Dr. Montgomery,

Crusade has set up a task force to decide what it should be doing in the area of social action. I have been asked to write the papers to guide the task force's work. The title would be: "A Theological Rationale for Social Action and/or Inaction".

This is not my field, nor do I have a great amount of time to do research. Yet, I'm more qualified than anyone else on the task force (a commentary on this group's problem). I would greatly appreciate any bibliography or help you could forward to me.

I hope this will not be a burden. But I think it has a frightening significance. I'll be happy to give you all due credit.

Sincerely and thankfully,  
Jim McHanna

P.S. I'll be applying for the summer program and M.A. at Strasbourg. I think I can coordinate this with my Ph.D. study at U. of Aberdeen.
