

The second session of summer school ended on July 29. The enrollment was 319. In spite of record temperatures, both teachers and students "kept their cool" and the Summer of '77 will be remembered as a very good year.

The Trustee Committee on Campus Planning, Physical Plant, and Construction met on campus July 12 to hear the concept of our master campus plan presented by our consultant, John McCulloch. They enthusiastically endorsed the concept and recommended it to the Executive Committee of the Board of Trustees on July 15. At their meeting on campus, the Executive Committee heard the concept explained by the consultant and unanimously approved it.

MASTER  
CAMPUS  
PLAN

Requests for SBC Cooperative Program capital funds have been derived and phased from the master campus concept. These have been forwarded to Dr. Porter Routh ahead of the August 1 deadline.

At their regular semi-annual meeting in October the entire Board of Trustees will review the campus plan with the consultant and the administration. At that time, final action will be taken by the Trustees.

Dr. Gustave J. Rath, Professor at Northwestern University, spent July 20-21 on campus meeting with the Administrative Council of the Seminary. He is the consultant who has been employed through means of the ATS grant awarded earlier this year. The purpose of the grant awarded to the six-member council is "to enable a growing Seminary to face the problems of change, establishing an effective program of participatory management using new scientific management techniques." The consultation and the management development process will continue through 1978.
