

SEP 1

SEMINARY LIBRARY

Orientation/Matriculation was held for entering students at Southeastern, August 30 - September 1. Peer support groups with well-trained student leaders were immensely helpful to the new students. A reception for entering students was planned by the Student Council and held in the Cafeteria Thursday evening, August 31.

ORIENTATION/
REGISTRATION

Dog days are definitely over in Wake Forest. Activity on campus is intense. Final touches are being put on Bostwick Hall, completely remodeled for men students this fall. Women students have overflowed the Women's Dormitory and are being housed in the Seminary Manor and a seminary residence on West Avenue. Eighty families are living in Raleigh apartment complexes by way of a negotiated rental arrangement.

Classes begin September 5. Five new teachers, along with a number of adjunctive teachers, join the regular faculty in welcoming another large enrollment of new and returning students.

The annual Faculty Workshop was held on campus August 28-29. All the faculty were present for the fellowship and the work sessions. Area faculty meetings were held and a good jump was gotten on a number of academic projects including a thorough curriculum study.

FACULTY
WORKSHOP

The zoning request for the seminary student housing project (100 apartments) was approved unanimously by the Wake Forest Town Board on August 10. The official petition for annexation of the newly zoned land, thus adding it to the city limits and making it eligible for sewer and utility services, has been filed and a public hearing on the matter has been set for September 14.

ZONING
ANNEXATION

Plans are moving along rapidly for both the subdivision development and the student apartments construction project.

Totals for student aid of all types are now complete for the past academic year. During 1977-78 the seminary was able to distribute a total of \$227,466.00 for aid of all types. While this amount is gratifying, there were numerous requests which had to be turned down due to lack of funds.
